

## 2019 Scholarship Winners

Congratulations to our 2019 scholarship winners! They have been awarded \$1,000 scholarships to be used for tuition, supplies, and books at the college or trade school of their choice.

**Cyeauna Young**

Cyeauna is a 2019 Graduate of Franklin Pierce High School. Her teacher states she is "self-driven and loves to learn as much as possible. She is always enrolling herself in the most challenging classes. She is tenacious, responsible and caring." Cyeauna has donated her time to the NALC Stamp Out Hunger Food Drive for the last 10 years! Also, she has volunteered for Winterfest and the Festival of Trees. She has, somehow, also found time to volunteer at her school, working alongside the athletic trainer for various sports activities.

Cyeauna will be using her Scholarship at the UW (her dream school) where she will be majoring in Health Science and working toward a career as a physician's assistant. She has always had a passion for helping others.

**Jon Eric Lemming, Jr. "JJ"**

JJ is a 2019 Graduate of Steilacoom High School. JJ's Teacher and Coach stated that "I have seen Jon grow from a boy into a man people gravitate to." He recounted how JJ epitomizes sportsmanship and being a good citizen - which he has proven time and time again through volunteer work, which included helping little league players improve their skills.

JJ has participated and excelled in multiple sports and athletic programs throughout his tenure in Steilacoom Schools. He currently holds every quarterback record at Steilacoom High School! He has earned 12 varsity athletic letters, all while earning the Honor Roll and Dean's List all through High School.

JJ will be attending CWU in the Fall, where he will be majoring in Education and playing football for the Central Washington University Wildcats!

**Ryan Decker**

Ryan is a 2019 Graduate of Archbishop Murphy High School. Ryan's school counselor states, "Ryan is a determined and mature young man who is able to confront any situation head on." She also recounts that Ryan is an invested member in his community and gives openly of his time, volunteering for North Help Line Food Bank and The Special Olympics.

Recently, Ryan was awarded the Archbishop Murphy High School STEM Student of the Month Award! Ryan's activities at school include Robotics Club and Nerd Club. He also spends his time on the Archbishop Murphy Steven's Pass Development Snowboard Team.

He will be attending Montana State University in the Fall, where he will study Computer Engineering.

Do you know someone graduating from high school in 2020? If so, tell them to contact us at 1-800-247-7328 or visit [www.myc1cu.com/join/scholarships](http://www.myc1cu.com/join/scholarships) to learn more or apply for one of next year's scholarships!

## 9th Annual Postal Worker and Member Appreciation BBQ

This August 15th, we will be hosting our 9th Annual Postal Worker and Member Appreciation BBQ held at our South Seattle Branch, located onsite at the Seattle Processing and Distribution Center. All of our members and postal employees are welcome to attend. We will be serving hot dogs, chips, sodas, water, and cookies between 11am-3pm, so stop by and let us thank you for your membership! We look forward to seeing you there!

### Tell Us How We're Doing!

Member satisfaction is extremely important to us. We strive to offer you the best member service possible, so please take a moment to let us know what we're doing well. And if there's anything you'd like to see done differently, don't hesitate to tell us. Your feedback can only make us better!

Plus, if you mention a team member by name, they could win a trip! Visit your branch's Google page or email your comment to [marketing@myc1cu.com](mailto:marketing@myc1cu.com).

### Protect Your PIN

We want to take a moment to remind you of the importance of protecting your Visa PIN. Allowing others access to your PIN also allows them access to the funds in your account. Always protect your PIN and do not share it with anyone else.

### Is Solar Energy Right for You?

Now that summer is here, why not put the sun to work for you generating electricity? Photovoltaic (PV) systems use sunlight to generate electricity, feeding it into the grid, so that you get credit for every electron that you produce. PV solar systems are less expensive to buy and install today than they have ever been before, and we have loan products designed to make the most out of currently available incentives and tax credits.

Solar energy is the cleanest, most reliable, and predictable source of power on the planet. Once you buy and install a PV system, you own the production of your own electricity for the 25 or more years that the system operates. You will be immune to future rising electricity prices. Our regional real estate market understands and values the benefits of PV solar systems, so your home will be worth more if and when you go to sell it.

There are many highly qualified PV solar system designers and installers in our region, and they use powerful but simple tools to determine how much potential your home and property have to produce electricity from the sun. They balance that possibility with the electricity needs of your home, and many contractors also recommend or perform energy efficiency upgrades to reduce those power needs first. With today's approaches and technologies, you can easily meet all of your power needs this way.

Want to learn more? Visit our website at [www.ezsolarloan.com](http://www.ezsolarloan.com), text "solar" to 253-328-5080 or give us a call to speak with one of our knowledgeable Member Representatives.
